Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE three MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. In view of applicant's request, the restriction requirement of the Office Action mailed on 9 January 2002 is withdrawn.

Claim Rejections - 35 USC § 112

2. Claims 1-30 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. Omission of elements, critical or essential to the practice of the invention, from the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). Applicant, in applicant's summary of invention section and the Table, emphatically states that a buffer layer, having lattice constant and type matching those of the free layer, is a key element in each embodiment of the invention. However, these relationships are not claimed. Hence, the claims, failing to recite these matching properties, do not satisfy section 112, first paragraph.
3. The following is a quotation of the second paragraph of 35 U.S.C. 112:
4. The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 1-14, 16, 17, 21, and 25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - a. Regarding Claim 1, it is unclear what is meant by the reference "18" in the penultimate line.

Art Unit: 1775

- b. Regarding Claims 4, line 3, Claim 17, line 3, Claim 21, line 3, it is unclear what is meant by the phrase "said a non-magnetic conductor spacer layer." Is "a" superfluous? Is this layer different from the layer of the same description previously recited in Claim 1.
- c. Regarding Claims 8 and 25, it is unclear whether the recited materials are alternative choices or simultaneously present.
- d. Regarding Claim 14, line 1, it is unclear what is the antecedent basis of the phrase "spin filtering giant magnetoresistive (GMR) sensor element."
- e. Regarding Claim 16, it is unclear what is meant by the phrase "further includes." What is added to the recitation of Claim 15? Rather, it appears that this claim merely further defines Claim 15.

Allowable Subject Matter

- 6. The claimed GMR structures and methods of making GMR structures do not appear to be anticipated or rendered obvious in view of the reviewed prior art.
- 7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael La Villa whose telephone number is
